Proficiency

PROFILE

My professional journey is characterized by the ability to apply appropriate techniques and structured approaches to master and integrate technologies effectively, always aiming to meet specific business needs.

Aligned with continuous learning and the democratization of technology, I maintain my enthusiasm for developing solutions that consistently deliver the best results. With a commitment to innovation and excellence, I am dedicated to exploring new tools and methodologies that enhance productivity and streamline processes. Collaborating with cross-functional teams, I strive to foster an environment of creativity and problem-solving, where diverse ideas can flourish.

PROFESSIONAL EXPERIENCE

Full-Stack Developer

2024 - Present

Projeto

I develop client solutions in a fast, efficient, and highly professional manner. I typically use C# for API development, PostgreSQL for database management, and Next.js for front-end applications, along with other languages such as Dart.

Back-End Developer

Forelock4IT

2023 - 2024

I have developed new features for clients seeking greater practicality and agility in their systems. My work spans small-scale projects, large scalable solutions, and white-label applications—all built using C#.

Full-Stack Developer

2022 - 2023

Winsiga Sistemas

I gained experience developing new functionalities for an ERP system and the company website using .NET. Additionally, I maintained legacy systems, such as an internal finance management system developed in VB6 and VB.NET, and contributed to the development of an inventory management application using Xamarin technology.
